

Project Manager – Commercial Security & Fire Systems

Type: Full-Time

Salary: \$65,000 – \$85,000/year

Lead Projects That Protect What Matters

At **Technical Systems Group Inc. (TSG)**, we design and deliver state-of-the-art commercial security and fire alarm systems. We're looking for an experienced **Project Manager** who thrives on coordinating people, processes, and technology to make projects run seamlessly. If you're a strong communicator, love problem-solving, and want to see projects through from blueprint to handover—you'll feel right at home here.

Why You'll Love This Role

- 💰 **Competitive Pay:** \$65k – \$85k/year
- 📈 **Career Growth:** Opportunities for leadership development and technical certifications
- ☀️ **Impactful Work:** Manage projects that keep businesses and communities safe
- 🤝 **Collaborative Culture:** Work closely with sales, engineering, and field operations teams
- 🏠 **Comprehensive Benefits:** Paid vacation/sick leave/holidays, life insurance, health plans, 401(k), and more

💡 **Note:** *The posted salary range reflects the broad spectrum of expertise and experience levels applicable to this role. Compensation will be determined based on the candidate's qualifications, skills, and relevant experience.*

What You'll Do

- Own the full project lifecycle: scheduling, budgeting, materials, and customer updates
- Ensure every project stays on scope, on time, and within budget
- Support and guide field operations and engineering teams

- Track work in progress (WIP) and provide forecasting
 - Maintain strong communication with customers, contractors, and internal staff
 - Review blueprints, schematics, and specifications for accuracy
 - Conduct site visits, manage change orders, and monitor project financials
 - Lead weekly PM meetings and contribute to continuous improvement
-

What You'll Bring

- 2–5 years of project management experience in commercial security integration (required)
 - PMP certification, technical certifications, or Associate degree in Project Management (preferred)
 - Strong organizational and decision-making skills
 - Excellent communication and leadership abilities
 - In-depth knowledge of security and access control systems
 - OSHA 10 certification (or willingness to obtain)
-

Next Steps

If you're ready to step into a role where **every project you manage makes a real impact**, we'd love to hear from you.
